1. Context

In Punj Lloyd, Corporate Social Responsibility is focused on enhancing the lives of the local community in which it operates. This takes shape by way of providing new skills and in general, creating a better quality of life for the people in the communities in which the company operates. We strongly believe in contributing towards the betterment of society and endeavour to create a positive impact, while achieving our business goals.

In India we have done meaningful social activities at most of our major sites. At our first solar power plant development in Bap, Western Rajasthan, we have undertaken harvesting rain water through the construction of taankas at select locations across the region. We have also developed a Life Enrichment Programme, which incorporates holistic approaches to healthcare, family planning, living conditions, nutrition and personal empowerment. We have partnered with Sahaj Sansthan and SNS Foundation for the implementation of these programs.

We were the first Corporate to fund the Indo-US Corporate Initiative for HIV/AIDS in Medicity, a multi-specialty medical institute in Gurgaon, India. The goal was to launch an awareness campaign which aims to arrest the spread of this deadly epidemic. Since then numerous HIV/AIDS prevention workshops have been held at our sites across the globe.
