## Punj Lloyd Group wins four new contracts

- Contracts include Group's first infrastructure & utility project in Libya and an oil & gas project from Cairn Energy India Limited

**New Delhi, January 7, 2009:** Punj Lloyd Group, an engineering, procurement and construction (EPC) conglomerate, today announced four contract-wins including Group's first infrastructure project in Libya and a prestigious oil & gas contract from Cairn Energy India Limited.

*"Punj Lloyd Group is proud to win 4 new contracts, demonstrating the reputation of the Group in executing unique and challenging projects not just in India but also abroad. With our expertise and skilled management, we are confident of timely execution of these projects", said Mr Atul Punj, Chairman, Punj Lloyd Group.*

**Project awarded by Cairn Energy India Limited:** Valued at Rs 104.56 crores (US\$ 21.55 million), the new contract from Cairn Energy would include engineering, procurement and construction of a pipeline in a stretch of 56.52 km. The scope of work for this contract would include laying a crude oil heated and insulated pipeline and a gas pipeline in section II for the Mangla Development Project, in Gujarat. This project is unique because the waxy Rajasthan crude oil which solidifies at normal temperature has to be continuously heated as it moves through the pipeline. The 8" dia gas pipeline has to be laid in the same trench as the 24" dia crude oil pipeline. Along with the laying of the pipeline, Punj Lloyd will also construct 3 generator heating stations to heat the crude oil and the gas from the 8" line will be used to run the generators. The project is scheduled for completion in a challenging period of seven months.

**Project awarded by Housing & Infrastructure Board (HIB) of Tripoli:** Across borders, Punj Lloyd bagged its first infrastructure and utility project in Libya in JV with Public Works Company Tripoli (PWCT). Valued at Rs 1050.05 crore (LD 259 million), the scope of work for the contract will include upgrading the infrastructure of Arada, an existing township in Tripoli, Libya. Punj Lloyd would be involved in engineering, procurement and construction along with commissioning of infrastructure network including water, sewage, storm water main and branch lines, roads and other facilities. The project is scheduled for completion in four years.

**Two Letter of Awards:** Simon Carves India Limited, a subsidiary of Punj Lloyd, has also received two Letters of Award (LOA) from Cairn Energy India and Petrofac for the design and engineering of their pipelines. This adds to Simon Carves India's third party client portfolio, which has been consistently expanding.

**ENDS**
